

FILTERS, REGULATORS & LUBRICATORS

6mm (1/4"), 10mm (3/8"), 13mm (1/2"),
19mm (3/4") & 25mm (1")

Spectrom™ is proud to announce the release of a filter, regulator, and lubricator accessory line. These products can be used in many industrial air driven applications such as AODD pumps. They are durable and have been competitively priced within the marketplace. The filter, regulator, and lubricator are modular units and can be independently or combined in multiple configurations. These products can be used to for any air operated equipment.

Filters

- Filters come standard with 5 micron filter elements that Wilden suggests for AODD pumps.
- Manual drain is standard, but an automatic drain is available.

Regulators

- Regulates the pressure supplied to equipment between 0.5-10 bar (7 - 140 psig).
- Diaphragm operated, relieving type

Lubricators

- The oil delivery rate is adjustable.
- Increases MTBR (Mean Time Between Repair) of your air operated products

Features and Benefits

- Competitively priced
- Modular construction
- 5 micron filter standard
- Connection type is FNPT
