

SPECTROM™ EQUALIZER®

SE25F - 25 mm (1") Surge Dampener

Spectrom™ is proud to announce the release of 25mm (1") surge dampeners used with many types of positive displacement pumps. The SE (Spectrom™ Equalizer®) surge dampeners are available in polypropylene and can be fitted with a Santoprene® bladder or PTFE bellows.

The 25mm (1") SE dampeners are offered in adjustable or automatic versions that will allow customers to fine tune the dampening effects suited for their process application. SE dampeners come equipped with 25mm (1") NPT and BSPT threaded connections. The SE surge dampeners have been rigorously tested to provide the same fit, form, and function as our major competitor at a significantly lower price.

Models

- SE25F 25 mm (1") – 1.39 l (85-in³)

Features and Benefits

- Lower price than our major competitor
- Polypropylene wetted parts
- PTFE bellows or Santoprene® bladders
- Adjustable and automatic version
- Connection types available:
 - NPT threaded
 - BSPT threaded

Enclosures

- Price Sheet / Competitive Cross-reference
- Engineering, Operation & Maintenance Manual SPC-19010-E
